HEALTHY home tour

Every day we are subjected to an onslaught of chemicals in our environment from the air, in our food, from our water and even our trusted cleaning products.

The Healthy Home dream team will show you how to create a healthy home simply by:

- Reducing your use of toxic cleaning products and using Amway home products.
- Improving indoor air quality by removing dust, pollens, dander, odours, chemical vapours, bacteria and viruses with ATMOSPHERE.
- Showing you what lurks in your drinking and cooking water, and how to reduce your exposure with eSpring.
- Using iCook cook ware to cook healthier and live better.

A Healthy Home is our haven and our sanctuary, a place where we should eat healthy food, breathe clean air and drink pure water. Is your Home Healthy?

Join the tour with our Healthy Home dream team, Chef Glen Barratt, National Health and Wellness Trainer Cheryl O'Neill and our eSpring & Atmosphere Expert, Michael McLaughlin, to give your home a health check.

Have the opportunity to go into the draw to win.

1st prize - a Harvey Norman voucher to the value of \$250.00
2nd prize - a home Spring cleaning voucher to the value of \$100.00
3rd prize - a hamper of Home products to the value of \$50.00

Are you ready to create a Healthy Home? Go to www.amway.com.au to purchase tickets now

Nothing Compares to Amway Training

Join us to sample products, watch demonstrations, learn all about the new digital business tools and enjoy the services your Business centre offers. Facilitated by Amway product experts these sessions are for new IBO's, customers or anyone wanting to learn why Nothing Compares to Amway. First Thursday of the month in your business centre.

eLearning

Amway's online learning site is free and all you need is a computer. With e-learning, you can fit your training and course work in with your life, not the other way around.

Undertake business and product courses, download the latest information and resources you need and complete your training in a way that best suits you. It's flexible, free and easy.

New eLearning Newspaper has been launched!

Webinar

Webinars are a great way to learn and interact with your trainers, without leaving the comfort of home. Using your PC or laptop, you can connect to free webinars.

The trainer hosting the event will guide you through the session. You can ask questions, make comments and interact to get the most out of each session.

Then check the calendar for upcoming webinars and you can get started today!
